### Why do I need to provide the MatrixCare Billing Client ID?

Most integrations are activated at the facility level. This means each care setting at each of your facilities/locations under your organization will require unique actions by our Technical Services team. Your MatrixCare Billing Client ID helps us complete your integrations more efficiently and helps ensure the correct location and MatrixCare care setting/environment is activated, and the correct data is being shared with our partners.

### What if I cannot find the MatrixCare Billing Client ID?

If you are not able to find your MatrixCare Billing Client ID, we can still complete your integration. Please make sure you enter the correct physical address of the facility/location and make sure the enter the correct care setting for the location (i.e. Skilled Nursing or SNF, Independent Living or IL, Assisted Living or AL, etc.). By providing the exact location of the facility and the care setting we will be able to identify the correct account in our system. We may reach out to you for additional information or verification to ensure the integration is activated at the correct location.
